

BUILDING TRADES

Certificate

Contact: Dr. Harry Sheski, CAO, (505)287-6641

The Building Trades program is designed to prepare the student for an entry level job in the building trades. Our homes, our schools, and the stores in which we shop—each was built with the help of carpenters, electricians, and plumbers. Carpenters design projects, layout and study blueprints, measure and arrange materials according to plans, and must be familiar with national and local building codes. Carpenters cut and shape a variety of materials— wood, plastic, concrete, drywall, using saws, planes, drills, and other tools. Tools will be provided for the students enrolled in the construction trades program. Students enrolled in this program may specialize in certain construction tasks, or prepare to be a general contractor for residential construction.

BUILDING TRADES REQUIREMENTS

Math requirement: completion of CCDM 103N or placement into a higher level math as determined by the College Placement Test.

OEBT 100, Building Trades I.....	8
OEBT 104, Woodworking Skills I	3
